Letter of Recommendation

I take great pleasure in introducing **Ashish Kumar Basak** as a candidate for the Graduate Program in your University. He was a student in several of my courses.

Ashish Kumar Basak enrolled Khulna University of Engineering & Technology (KUET) through a tough competition in 2002. I know him since then and found intelligent and assiduous in his study. In my course named Digital Logic Design (both in theory and practice), he drew my attention.

Ashish Kumar Basak had the ability in grasping the complex contents of the courses and displayed an aptitude for solving such problems. He gained a clear understanding of the courses that placed him in a very distinguished group in the class. Based on continuous assessment of four years, he secured CGPA of 3.50 (out of 4.00) and he was the 11th best student out of total 62 students in his class.

Ashish Kumar Basak, on completion of his B.Sc. degree, is working as a Software Engineer in multicultural and multinational environment. Therefore, he has strong background in programming and mathematical problem solving.

Finally, I happily recommend him without any reservation in your Graduate Program. Please arrange any financial assistance, if possible, that will enhance him for more devotion to research. Please do not hesitate if you have query in this regard.

Sincerely,

Ashish 03/03/2010

(Dr. Md. Aminul Haque Akhand)

Assistant Professor
